WORK EXPERIENCES

Bazaarvoice

User Interface Designer

July 2012 - Current

- Most of my work consisted in designing in code interfaces for UGC systems for top clients in the retail, manufacturing, financial, travel, automotive and technology industries in the US and worldwide
- Collaborated with Engineers, Project Managers and Designers to implement products in client sites
- Interacted with clients and agencies throughout implementation process, from requirements gathering to product launch
- Implemented and innovated HTML/CSS/JS/Design best practices
- Designed interfaces that adapt to multiple languages for clients with sites in multiple countries
- Worked remotely with team members in London, Costa Rica & Ukraine
- Used version control system to collaborate with developers, to checkout code and to promote code

Migration.mobi

UI/UX Designer

January 2012 - July 2012

- Design interfaces for Windows Phone and Windows 8
- Create wireframes to create optimal user experience
- Design based on the Metro design language and principles, focusing on the user and the content
- Export visual assets for development team
- Pass design through Microsoft QA

Themify.me

Forum Support / Theme Developer

April 2012 - August 2012

- Performed HTML/CSS/JS/PHP customizations
- Provided support in forum about themes implementation and customization
- Integrated mobile elements to responsive themes
- Collaborated successfully online with team members in Canada and Argentina

The University Of Texas At El Paso: Enterprise Computing

Web Designer/Front End Developer

March 2006 - December 2011

- Designed & developed interfaces for web applications with up to 60,000 daily users
- Created HTML/CSS/JS framework for applications, following best CSS practices & design standards
- Designed optimal user experience by creating wireframes, and prototypes for custom web applications
- Use of Adobe Creative Suite to design layout compositions and create presentations for stakeholders
- Implemented design to a variety of systems such as ASP.NET applications, WordPress, DNN, Touchnet, Atlassian Confluence, BlackBoard, Xythos, Microsoft Exchange & Microsoft SharePoint
- Perform efficiently accessibility testing, Cross-browser compatibility debugging and code validation
- For each project I created design documentations and specifications

PERSONAL PROJECTS

Web Design Projects
